

POLICY OF SOL GROUP COMPANIES REGARDING QUALITY MANAGEMENT

The SOL Group Companies run their business with the full knowledge of the necessity to consolidate and further develop a policy on quality management oriented to the continual improvement in a view of total management of its own activities, knowing full well that quality is a value built working together, day after day, through dialogue, participation, adhesion and involvement.

In order to guarantee the development, implementation and effectiveness of the quality management policy, the SOL Group's Companies refer to the Quality, Safety Environmental and Regulatory Affairs Management in the Headquarters which is authorised and delegated to take all the necessary actions.

The quality system of SOL Group's Companies develops in compliance with the prescriptions of the ISO 9001 international standard and for the Medical Devices sector in compliance with EN ISO 13485; for the test laboratory activities, the references are to the current revision of EN ISO/IEC 17025 and to ACCREDIA (RT-08) requirements.

The commitment of all of the employees working for the SOL Group's Companies is to use the Management System as an operating instrument for organising the everyday work both in the Headquarters and in the Territorial activities, with the aim of understanding the expressed and unexpressed necessities of both "external" and "in-house" customers, as well as all the interested parties, and satisfying the applicable requirements, pursuing their satisfaction and by supplying them with products and services which always meet the specifications and complying with the set deadlines.

Management promotes the analysis of the strategical context of SOL Group in order to understand the main risk and opportunities to be managed to achieve business goals.

Within Headquarters departments and Territorial units as well as all SOL Group Companies, this Policy has to be integrated identifying year by year the objectives for a proper management and improvements of both organizational and technical or managerial processes.

This document is acknowledged by every person working directly or for SOL Group's Companies through the publication on the internet website www.solgroup.com.
